Item # 500 Series, Conventional Case Palletizer

The 500 Series (formerly Lambert S-500) offers solid, semi-automatic palletizing of cases, cartons or trays at an affordable price with minimal operator input. Simply place the empty pallet into position, select the product and pattern to be run, turn on the palletizer infeed conveyor and then remove full loads when complete. No manual lifting, stacking or handling of product is required. Standard capacity: up to 600 lbs. per layer and 15 cases per minute (depending on the layer pattern.)

FEATURES

- Up to 15 cases per layer
- 600 lb. capacity (standard)
- Economical - 1 Year ROI
- Small footprint for end-of-line use
- Flexible - Pallets can be positioned and removed using a pallet jack, walk-behind, or fork truck
- Low level carton infeed
- Labor efficient - Requires only a single person to load and unload pallets
- Automatic stacking and layer pattern
- Eliminates hand stacking and potential back injuries
- User friendly simple controls
- Can be upgraded to fully automatic
- Simple installation
- 2-year warranty
