

# Series 2170

## Premium Air Hose

Series 2170 is a layflat hose, especially designed for compressed air applications requiring great resistance, but easy handling (coiling). Requires minimum storage space and is very light weight. Abrasion resistant and resistant to high temperatures due to the special compound formulation. High visibility **yellow** color.

<b>Construction:</b>	Nitrile/PVC compound. Both tube and cover are simultaneously extruded through a circular woven jacket
<b>Reinforcement:</b>	One ply polyester
<b>Temperature:</b>	-36°F to +200°F
<b>Design Factor:</b>	3:1
<b>Color:</b>	High visibility yellow

Part #	I.D. (In)	I.D. (mm)	Wall Thickness (In)	W.P. (PSIG)	Weight (Lbs / Ft)	Std. Length	Stock (Yes) or Min. Order
