

Series 2720 Rubber Crush Resistant Hose

A state-of-the-art sanitary hose designed to handle a wide variety of products and application requirements (Meets 3-A standards, USDA requirements and is FDA compliant). The specially compounded Chlorobutyl tube is engineered to handle high temperatures, will not impart taste or odor and is highly resistant to common CIP solutions. The **Polyester Monofilament** Helix provides kink resistance and vacuum resistance. Manufactured on polished chrome mandrels, our mirror finish tube resists bacteria growth, while providing excellent flow rates. Ideal for transfer of beer, wine, and many other sanitary products.
