

# WHISPERBLAST® compressed air nozzles

## Flat

### Series 600 Plastic version

Provides focused blasting power with minimal air consumption and noise. Flat configuration can be used individually or side-by-side to create a very effective air knife.

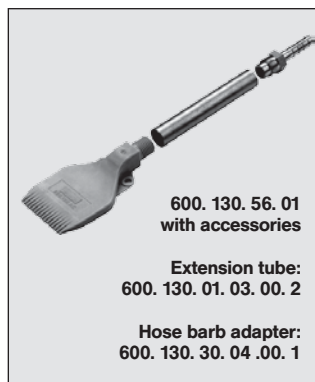

**NEW:**  
Polypropylene for the food industry  
(FDA-conform material)

While standard plastic WHISPERBLAST nozzles come in a distinctive blue color, model 600.130.S2.BC is made from natural Polypro, a colorless material. Since no color dyes have been added to this model, it meets FDA requirements for use in food or pharmaceutical applications. See page 24.

Type	Ordering no.		Connection	Description	Accessories	Capacity for Air (Standard Cubic Feet per Minute)				Approx. Wt. (lb.)	Max. Pressure	Max. Temp. °F
	Natural PP S2	POM 56				15 psi	30 psi	45 psi	60 psi			
600.130	○	○	BC	-	Original flat WHISPERBLAST	6.5	10.8	14.9	19.1	.05	75 psi	120
600.130	-	○	-	01	Flat WHISPERBLAST (1/4" Male NPT) w/accessories	6.5	10.8	14.9	19.1	.05	75 psi	120
