PMC Series Air-Cooled Remote Condensers Are Chillingly Effective

Mueller® PMC series air-cooled remote condensers are designed and manufactured for the vigorous demands of either milk cooling or chilled water applications.

Paul Mueller Company air-cooled remote condensers are available for installations requiring a single condenser application.

Features and Benefits

- Complete range of capacities from 10 to 40 hp.
- Floating Tube™ coil design.
- High efficiency 3-phase fan motors with ball bearings and internal overload protection.
- Internal baffles provided between all fan cells.
- Weatherproof control panel with factory installed door interrupt disconnect switch.
- Condenser coils are copper tubes with corrugated aluminum fins at 10 fins per inch.
- Special individual pressure fan cycling for each motor including header fan motor.
- Sizing for R-22/R-507. Other sizing upon request.
- Dual voltage fan motors.
- Must specify proper unit voltage at time of order.
- Coated steel fan guards.
- UL and CSA listed.
